Subject: Re: Data Support for Way

John,

When you have a chance can you call me to discuss a couple of things, not urgent.

I went through the following projects:

1270 Upper Animas Reassessment
1271 Red and Bonita
2132 Red and Bonita Mine
1368 UpperAnimasRiver
2255 R8RedBonita updated 10-31-13
2622 Red and Bonita RV
2278 Upper Animas

Only projects 1270, 2278, and 1368 appear to have locations around the mine.

2622 should have Gold King locations based on the location IDs and descriptions but there are no lat/longs in the proje

I'm going to work with Melissa and Janine on #5 this afternoon. Once we have the data standards locked down for the response, we can work on what its going to take for to get these projects to more or less comply with the rest of the response.

(dropped Marty off email chain)

John - you now have access to the Gold King Assessment EPAOSC site
epaosc.org/GoldKingAssessment Please begin moving adit flow deliverables to the document section.
Please just use category "Daily Flow" not "Daily Flow [Date]"

I've identified one additional Scribe project related to the Red and Bonita Mine site (project ID#1271, last published by Andrew Longworth in 2010). I'm going to take a look through that and see what's in it.
